according to the results of consideration of motivation letters (when forming a rating list of a wide competition, entrants to whom higher education institutions have determined the same ranking places based on the results of consideration of motivation letters have the same rights - first, second, third, etc., provided that they have the same ranking indicators of the highest order).

If the competition scores are the same, the priority of the applications from the first to the last (for places of state and regional order) is used to organize the ranking list of entrants, if the priorities are the same - higher grades in the cases provided for in this paragraph, then - the results of the review of motivation letters.

When conducting a competitive selection for training at the expense of individuals and legal entities based only on the results of consideration of motivation letters, the construction of a rating list based on the results of evaluation of motivation letters is carried out only in the case when the number of entrants exceeds the number of places of the licensed volume allocated for the corresponding category of entrants in the current year. In the event that the number of entrants does not exceed the number of allocated seats of the licensed volume, the ranking list is formed in alphabetical order.

3. The ranked list of entrants includes:

degree of higher education, specialty, name of the competitive proposal, formed education, sources of funding, basis of admission;

surname, first name, patronymic (if available) of the entrant;

competitive score of the entrant (except for those enrolled on the basis of a positive evaluation based on the results of only the creative competition (for the specialties specified in Appendix 1) or only the interview (for other specialties)) in case of its use;

application priority (for places under state and regional order);

a sign of the application of special conditions for participation in the admission campaign, quotas for foreigners.

Surnames of entrants whose place of residence is the temporarily occupied territory, the territory of settlements on the contact line and the administrative border (who are not registered as internally displaced persons) or who moved from it after January 1, 2023, are subject to encryption in all information systems.

4. Address allocation of budgetary places for admission to study for higher education is formed in the EDEBO on the basis of competitive scores, priorities and arrangement of the ranked list of entrants taking into account the total, maximum volumes, qualification minimum of the state order. An entrant may be recommended for enrollment according to the highest priority from among those indicated by him in the applications, according to which the entrant is among those who can be recommended for enrollment in places by state (regional) order, in accordance with his competitive score. The technical task for the implementation of the targeted allocation of budget places is formed in accordance with the Materials for the development of the technical task for the algorithm of the targeted allocation of budget places in 2023.

5. Lists of entrants recommended for enrollment by state or regional order for each competitive offer are received by the admissions commission according to the data of EDEB, are checked for the authenticity of the information submitted by the applicants and compliance with the requirements for the formation of lists provided for in this Procedure, are approved by the decision of the admissions commission and are made public by placing them on the website of the University in accordance with the terms specified in section V of this Procedure. Information on providing a recommendation for enrollment is displayed in the applicant's personal electronic account. Entrants recommended for enrollment may be notified by electronic and mobile communications in accordance with the Admission Procedure.

The application status of an entrant recommended for enrollment by state (regional) order changes from the status "Admitted to the competition" to the status "Recommended for enrollment (education by state (regional) order)".

In the list of entrants, recommended to enrollment, are noted the same data as in the ranking list of entrants in accordance with paragraph 3 hereof section

H. Implementation of the right of entrants to choose a place of study

1. Persons who received a notification in the entrant's personal electronic account about receiving a recommendation for enrollment in state or regional order places (who received information from the official website) within the time limit specified for fulfilling the requirements for enrollment in state or regional order places in section V of this Procedure, must confirm the choice of place of study in the electronic office with the imposition of a qualified electronic signature or in person at the International Humanitarian University.

The basis for enrolling a person for study is confirmation of the choice of the place of study, fulfillment of the requirements for enrollment and the conclusion of an agreement (contract) on study at the International Humanitarian University between the educational institution and the student (with the participation of parents or legal representatives

– for minor entrants), in which the rights and obligations of the parties may be detailed. An agreement (contract) on training can be concluded remotely with qualified electronic signatures.

Persons whose place of residence is registered (declared) in the temporarily occupied territory and are located there may conclude a study contract at the International Humanitarian University within three months after the start of studies, and its absence does not prevent the inclusion of such persons in the enrollment order. Otherwise, the enrollment order is canceled in terms of the enrollment of such a person.

2. Persons who have received a recommendation for a place of state or regional order and have fulfilled the requirements for enrollment in a place of state or regional order within the established terms specified in section V of this Procedure or in accordance with it, are subject to enrollment.

After the entrant fulfills the requirements of this Procedure, the authorized person changes the status of the entrant's electronic application to "Included in the order (training under the state (regional) order)", the status of his other applications submitted for open and/or fixed competitive offers for admission to training under the state or by regional order, automatically changes to "Deactivated (in connection with enrollment in studies by state (regional) order)".

Deactivated applications can be activated (if necessary) by the EDEBO user, in particular a representative of the Admissions Committee, at the request of the entrant to establish the status of applications "Admitted to the competition (education at the expense of individuals and/or legal entities)"

Persons who have received a recommendation for places of state or regional order and have not confirmed the choice of a place of study within the period specified for fulfilling the requirements for enrollment in places of state or regional order in section V of this Procedure, lose the opportunity

enrollment in the current year for studies to obtain higher education by state or regional order or transfer to such places.

In this case, the status of the application is set to "Excluded from the list of recommended (education by state (regional) order)". According to the decision of the admissions committee, this status of the application can be changed to status "Admitted to the competition (education at the expense of individuals and/or legal entities)".

3. Persons who have received a recommendation for enrollment in studies at the expense of individuals and legal entities and have met the requirements for enrollment are subject to enrollment.

The application status of an entrant recommended for enrollment at the expense of individuals and/or legal entities changes from the status "Admitted to the competition" or the status "Admitted to the competition (education at the expense of individuals and/or legal entities)" to the status "Recommended for enrollment (education at the expense of individuals and/or legal entities)".

After the entrant fulfills the requirements of this Procedure, the authorized person changes the status of the entrant's application to "Included in the order (education at the expense of individuals and/or legal entities)".

In case of non-compliance by the entrant whose application has been assigned status "Recommended for enrollment (education at the expense of individuals and/or legal entities)", the requirements of this Procedure, the status of the application is changed to "Excluded from the recommended list (education at the expense of individuals and/or legal entities)".

4. In the case of enrollment for studies at the expense of individuals and/or legal entities, a contract is additionally concluded between the International Humanities University and a natural (legal) person who orders a paid educational service for himself or another person, assuming financial obligations for its payment.

If agreements (contracts) are not concluded within ten calendar days (three months for entrants whose place of residence is registered (declared) in the temporarily occupied territory and who are located there) from the date of issuance of the enrollment order, then this order is canceled in terms of the enrollment of such persons

Tuition is paid in accordance with the agreement (contract) between the University and a natural (legal) person who orders a paid educational service for himself or another person, assuming financial obligations for its payment.

XI Adjustment of the list of recommended for enrollment

1. The Admissions Committee cancels the previously provided recommendations to entrants who did not confirm the choice of a place of study within the period specified for the fulfillment of the requirements for admission to places of state or regional order in section V of this Procedure, or did not fully provide the grounds for enrolling a person for study, provided for in clause 1 of section X of this Procedure.

2. Lists recommended for admission to the places of the state (regional) order are updated after the fulfillment/failure of the entrants for the degree of Doctor of Philosophy/Doctor of Arts for admission to study in accordance with Section X of this Procedure, taking into account their priority in the ranked list of entrants.

3. The procedure for adjusting the list of recommended for admission to places at the expense of individuals and/or legal entities is updated after the entrants fulfill/fail to fulfill the conditions for enrollment.
